

***INVENTOR
ASSISTANCE
SOURCE
DIRECTORY***

Fifth Edition

Compiled for
Inventions & Innovation Program
U.S. Department of Energy
by Pacific Northwest National Laboratory
June 1998

FOREWORD

This *fifth edition* directory is intended for your use in locating organizations that provide assistance to inventors and entrepreneurs. For assistance providers, it may help you locate others in your area that can supplement the services you provide.

Hundreds of hours and lots of hard work have gone into preparing this directory. Most of that work involved tracking down and verifying the individual listings in the database that forms the foundation of this directory. We wish to thank those who have responded to the letters we sent out asking what kind of assistance various organizations and individuals are willing to give to inventors. We apologize for any errors or omissions. Please inform us so that subsequent editions can be corrected.

The information contained in the directory came from datasheets voluntarily filled out by each organization. Many organizations that do provide services have chosen not to be included in this directory. We respect those decisions; therefore, their names are not included even though, in many cases, they provide very valuable service to inventors.

In compiling this directory we face another challenge. We have absolutely no way to measure the quality, value, or reliability of the services rendered. ***The user of this directory must take full responsibility for checking out the credentials of any sources of information or assistance.***

One of the ways that users can protect themselves is to obtain references from other inventors, entrepreneurs or assistance providers that have used a service they are interested in. We regret the need for these notes of caution; however, we would rather any agreements are entered with both parties fully informed.

How the Directory is Organized

The first part of the directory is a matrix (pages 2 through 17) listing all the organizations by state and showing the services each provides. The first three columns provide information on the type of organization listed: Non-profit or Not-for-profit; State or Federal; or For-Profit. Following the matrix is a listing of each organization's address, contact person, phone, fax, and e-mail (pages 18 through 41).

TYPE OF ORGANIZATION

Non-Profit: Organization is a non-profit or not-for-profit.
State/Federal: Organization is State or Federal.
For Profit: Organization is for-profit.

SERVICES PROVIDED

Inventor Assistance: Organization provides general assistance to inventors.
Market Assessments: Organization conducts market assessments.
Technical Assessments: Organization conducts technical assessments.
Patents & Licensing: Organization provides legal advice concerning patents and licensing.
Meet Inventors: Organization provides an opportunity for inventors to meet other inventors.
Meet Investors: Organization provides an opportunity for inventors to meet investors.
Prototype: Organization assists in building prototypes.
Investment/Funding: Organization provides investment/funding.
Funding Information: Organization provides information on obtaining funding/financial assistance
Show casing: Organization provides an opportunity for the inventor to show case his/her invention.

ORGANIZATION DESCRIPTION

SBDC: Small Business Development Center
Incubator: Business incubator
Club/Org: Inventor Club or Organization
Publication: Publication or Journal
EDO: Economic Development Organization
Sm. Business: Small Business
State Agency
Fed. Agency: Federal Agency
Local Agency
